ABOUT ME

I am a passionate and detail-oriented Web Developer with a strong foundation in Java, HTML, CSS ,React and React, and hands-on experience in building full-stack web applications. I have also gained working knowledge of Node.js, and .NET. I enjoy creating responsive, user-friendly websites and applications that solve real-world problems.

Currently, I am enhancing my skills by completing a Java Full Stack Development Course, where I am learning advanced backend development with Spring Boot, database management with MySQL, and frontend frameworks such as React. I am constantly seeking to improve my skills and keep up with modern development trends.

EDUCATION

SAVITRIBAI PHULE PUNE
University (BCA)
2022 - 2025

HIGHER SECONDARY
Certificate (HSC)
2021 - 2022

SECONDARY SCHOOL
Certificate (SSC)
2019 - 2020

SKILLS

- Vs code
- wordpress
- Eclipse IDE
- IntelliJ IDEA
- Git and github

EXPERTISE

- Java spring
- React
- SQL
- Java Script

PROJECT

1 ONLINE VOTING SYSTEM

GitHub: [Add link to your repo]
Developed a full-stack voting application allowing users to create, manage, and vote in polls.
Designed RESTful APIs using Spring Boot for poll creation, retrieval, voting, and deletion.

2 CHAT APPLICATION

Developed a real-time chat application using Spring Boot, SockJS, and STOMP protocol over WebSockets, enabling seamless bi-directional communication between users. The frontend was built using HTML, Bootstrap, and JavaScript, featuring a responsive UI with live chat updates.

E-COMMERCE PRODUCT CATALOG WEB APP

Tech Stack: React, Bootstrap, Spring Boot, REST API, MySQL
Developed a fully functional e-commerce catalog web application enabling users to browse, filter, and search products by category and price. Implemented a responsive front-end using React and Bootstrap, with dynamic product rendering and real-time cart management via a sidebar. Integrated secure login functionality and RESTful backend APIs using Spring Boot and MySQL for product and user data management

KEY TECHNOLOGY PROJECTS

Designed and developed several end-to-end applications such as a Hotel Management System, Game Store, Cloud Streaming Service, Notes Management App, News Aggregator, and a Custom Text Editor, showcasing skills in front-end/back-end development, RESTful APIs, and real-time data handling
